

## INFRARED THERMAL IMAGING

**INFRARED**  
TESTING, INC.

Continental Western Group®  
has partnered with  
Infrared Testing Incorporated (ITI)  
to offer infrared thermal  
imaging services.

## PROGRAM HIGHLIGHTS

The use of infrared technology to inspect electrical and mechanical equipment has proven to reduce unscheduled downtime due to equipment failures and significantly reduces the risk of electrical fire.

Incorporating ITI Infrared Electrical Inspection services in your overall Risk Management program enables you to:

- Check the status of electrical equipment
- Identify issues with equipment
- Understand efficiency of power usage
- Extend the useful life of equipment
- Provide clear mitigation solutions
- Prevent downtime and business interruptions due to unforeseen / emergency situations

Pricing will vary by the service or services provided by Infrared Testing Inc.

CWG Risk Services and ITI will work together with your staff to evaluate the electrical hazards in your workplace which could lead to employee injury, fire, property and equipment damage, and production downtime.

ITI's Thermographers are ASNT (The American Society for Nondestructive Testing) trained and certified level I & II Thermographers. ITI Thermographers follow test parameters, protocols and results as identified in the ANSI / NETA – Standard for Maintenance Testing Specifications for Electrical Power Equipment and Systems as well as those identified in NFPA 70 B & 70E.
